“ We were so sorry to learn of the passing of Dr. Pulido. He has been my primary doctor for several years now and was the most compassionate, caring doctor I've ever had. He didn't mind spending as much time as I needed at each appointment and was always kind, funny and easy to talk to. My husband just recently started seeing him too. Dr. Pulido will be deeply missed. My condolences and prayers to his wife, children, extended family and his office family.

“*There are no words for the heartbreak during this extremely difficult time for his family, staff, friends, and patients. Anyone that knew Dr. Pulido knows he would do anything to put a smile on your face! He was a very dedicated man and loved his children more than anything in this world! He would always tell us, “do what you have to do, family comes first”. Dr. Pulido took me in 6 1/2 years ago with little to no experience in medical and has trained me and taught me what I know today. I will forever be grateful for the knowledge he has taught me over the years. It saddens us all that such a great soul has gone so soon. All we ask at this difficult time is please keep his family and work family in your prayers as we grieve the loss of a wonderful man gone to soon! I pray you Rest In Peace Dr. Pulido.* 🙏😭💔😭💔🙏

“ Dr. Alex Pulido has been my doctor for a few years now and when I first went to him I was very upset b/c my previous doctor didn't listen to what I had to say and he listened with compassion and he helped me a great deal. When things weren't going right he would explain with concern what I had to do to make it right. When I first heard the news about his passing I was so surprised that I didn't believe it was true. I am expressing my condolences to his wife and children and hope that they can get some peace and comfort in this time. Rest in peace Dr. Pulido. you will be missed very much and your staff also will miss you so much who was also very sweet and helpful,

“ My husband and I are so saddened by the passing of Dr. Pulido. I knew from my first visit with him that he was a very special doctor, when my appointment was over I asked if I could give him a hug. My husband I are both deeply saddened to learn of Dr. Pulido's passing. He was a warm, caring, kind and compassionate man and a wonderful doctor. We were both patients and will miss him tremendously. It will be very difficult to find someone to fill his shoes. Honestly, I am still kind of numb with the news. My heartfelt sympathies go out to his entire family, but especially to his precious children whom he absolutely adored. Rest in peace Doc. We are surely going to miss you.

My heart breaks to hear of Dr. Pulido passing. He was not only the best doctor anyone could ask for, my husband and I also considered him a friend. It was not always easy to get my husband to the Doctor but once we started seeing Dr. Pulido the struggle with that ended. He truly cared about both of us and could always tell when something was on my mind and was talented at getting whatever was bothering me out in the open. It may or may not have been medical related but he always had words of wisdom regardless. He managed to put together a top notch staff at his office and you could tell they were all like a big family who had the utmost respect and truly cared for their patients. Not many people can say they truly love their doctor and everyone on their staff, but we can say that we love all of them. So prayers to all who truly love Dr. Pulido. Rest easy Doc, we know you will be watching over all of us from upstairs. God Bless.

My son, Stephen and I wish to extend our sincere condolences to Dr. Alex Pulido's wife, children, family and friends. Our hearts are broken with the knowledge of his passing and have found it hard to believe. I started to see Dr. Pulido not long after he started his practice here, in Palatka. He was always kind, professional, and compassionate. He also had a sense of humor as I recall when I sought treatment for an infection. I didn't want anyone waiting to be seen to hear the reason for my appointment, so I explained my symptoms in Spanish. I could not recall the word for "yeast infection" and we both struggled to find the correct word. He suggested the word for "self/rising yeast", so I said "No, I do not want to make bread" as we both broke into laughter followed by "mushrooms", and continued laughing. "No", I replied, "I do not have a garden full of mushrooms down there"! Turned out that he was correct about the mushrooms. I cannot recall laughing so hard and blushing so much for an appointment with any Doctor. I later explained to his staff why we laughed so hard. They also laughed. My son claims that Dr. Pulido had helped him tremendously with his health as well. Doctor Alex Pulido was truly an Angel sent to us. May he Rest in Peace. 🙏

I'm speechless. This man was dearly loved by all his patients, including me. He always had a wink and smile for everyone! I'm going to miss him asking me to stick my tongue out and then gently scold me for not drinking enough water...with a wink and a smile!! His staff was over-the-top! Everyone, and I truly mean everyone, was an impressive extension of Dr. Pulido's gentle demeanor and genuine kindness. RIP Dr. Pulido!
