“ I am privileged to have known Betty for 20 + years. She was a very classy and intelligent lady. Betty always carried herself with a lot of pride and dignity. She was a wonderful "Mimi" to my children and today they are better young adults because of her influence. I will miss you Betty. May you rest in Peace.

“ Mimi, You were a second mom to me, and someone I could turn to. It doesn't feel right without you around. I prayed every night that you could make it to January or longer, because I wanted you to meet your first great grandchild. I have realized that Mason's soul is still in heaven being created even though I feel his kicks every ten minutes. I would like to think you were the first to meet him face to face. Take care of him for the next nine weeks or so until he is ready to make his appearance, and please keep your hand on my shoulder as I raise him. I will always miss you and dream of the day we meet again. I couldn't have had a better Mimi, I hope you knew that. I love you dearly. Ashley

“ Betty was my best friend all thru school and I will never forget her. Her reputation was outstanding and her personality was tops. And of course she received honors for being the smartest in our class. A great cousin and friend.
