“ I didn't know if Mr. Grimley's passing. Just did a search because I wondered about him. He was my favorite bus driver for several years. He always looked out for us - there were 4 kids from the Brown family and my best friend Bonnie who lived just down the road. We nicknamed him Grimley bear because he liked to act grumpy but yet we could always get a smile from him. Charlotte was good friends with my mom Marian Brown. He made a lasting impression with how much he cared. The fact that I still think of him now at the age of 54 says a lot. I saw him maybe 15 years ago and he immediately knew who I was. I can only hope to have such an impact in someone's life. I just wanted to share with his family what a remarkable man he was!
