“ *The first time I met your Father was in your garage when we were playing cards. He sat down and played a few hands with us. It was really great. I also remember when we were playing Trivial Pursuit at your apartment with your Mom and Dad and they were nailing all the science and geography questions and having trouble with the entertainment questions, which is my wheel house.*

Denise and I are so sorry for your loss. We are praying for you and your family. I hope you can take some solace in the thoughts and remembrances that people are offering and all the lives he touched. Take care.
