Don was part of every repair job and beatification not to mention being apart of putting up an antenna on my home , bringing in reception on the TV , putting in a new faucet, an new microwave , fixing a shelf onto my porch so I could have room for all of my potted plantseating out with the family and being apart of meals at Dewayne and Karen's. YOU might say he was part of the family ...I'll miss him for sure and think of him often.....RIP
