“ I am so sorry to hear that Glynn had passed. I went to school with him at St. Mary's in Mpls. We were good friends. I tried to find him on Facebook, and then found out he was gone. I would like you to know that he was a very good person.

“ Glynn and I went to elementary school together but I did not see him after junior high until this past year. I spent many hours laughing and sharing memories with him. I am so happy that our paths crossed again and that I had the opportunity to get reacquainted with such a sensitive, caring, wonderful person. My deepest sympathy to the Mosely family.
