“ I as well worked with Chase in Mold Tooling and Optical Tooling. Chase was probably the best welder I've ever seen. He would give a friend the shirt off his back. Rest easy old friend I'll see you on the other side.

“ I've known Chase for a lot of years, since back in the 90's when he moved from the production line to the Optical Tooling department at Vistakon. We have both worked nights for a lot of years and had many discussions over the years regarding boats, cars, motorcycles, anyone that knew Chase knew his love for anything with a motor and how capable he was when it came to fixing ANYTHING. Chase would try to come across as a toughguy with attitude but anyone that really knew him could see through it, he was one of the good guys and would do anything to help a friend. I'll miss seeing Chase around work and miss the dinners together.

“ Work won't be the same without Chase around. He always gave me a good laugh when we saw each other at the end of my shift. He loved talking about anything that had a motor and was always willing to give advice. He will be missed.

“ Growing up with Herbie was so much fun. We always had a blast together and what I remember the most was him writing that unicycle everywhere we went. No one else could do it and believe me we all tried. He would come flying down off the hill on Charleston Street riding that unicycle like a boss! A lot of great memories. Rest in peace, my friend. 🇺🇸 Godspeed.
