Your honesty about Johnnie's life and death will resonate with others that are struggling, and those that struggle along with them. I Love you XOXO

“ My son Johnnie died of a Fentanyl poisoning March 30, 2024. He had battled his drug addiction for a very long time and was never able to overcome it. I slowly watched as this disease killed my son and there was nothing I could do. Addiction is cruel, complex, and very patient. We have lost two close loved ones to this disease in the past year. This is an epidemic and there is no shame in hiding how Johnnie died. Johnnie had so much potential and I grieve his loss immensely. Drugs robbed him of everything. I pray he is finally at peace. I have always loved you and I will miss you very much.

My heart is with all of you during this very difficult and emotional time. Johnnie should have had a much better life but those demons prevented that from happening. Know that I am always thinking of you all and wishing you strength in the coming days and years.

condolences. I was an elementary classmate and was thinking of peers from this time period who are on Facebook and thought of his name as i have good memory of names and this popped up. ongoing prayers and condolences to you and family. I'm a therapist and help those with mental health and substance abuse. I have seen this too many times of how this disease affects many.

Shannon, grow up. Johnnie & I were still married for 18 years and were best friends till the day he passed. In which he's met bryan. So 🙄👧👦 However I'm the one throwing his funeral. So, grow up & shut your mouth when you have no idea what's going on. We are celebrating his life, not your drama! Hope you have a wonderful day! 🙄
