“ TO MY DADDY I am truly devastated at your passing. It has been one week since you left. I know you were suffering and in pain. You are at peace now. I will keep you in my heart and always cherish the memories. I am your first born, named after you, and you will live on through me. I think of you every minute of every day. You taught me a lot. You have instilled in me good moral values, a good work ethic, to do the right thing, and to have priorities in order. I do that each and every day. I am so happy that you got to realize your dream of moving to Florida with mommy into a beautiful home. I enjoyed the weekends coming to visit with you and spending precious time with you. I will have the memories of pasta dinner on Sunday, going to get Frostys at Wendys, going out to lunch, shopping for furniture, visiting Mark, Ashley and the kids, and Lady too!, being outside with you while you cut the grass (to think you were just cutting the grass on September 4th), listening and waiting for the rooster to sing, and, of course, watching wrestling. I will cherish the last Fathers Day I spent with you. I know you loved the Cold Stone Fathers Day cake. I am happy you were able to spend my birthday with me. It was the best present I could have ever wished for. The Carvel cake you got me was the best and I am going to continue that tradition every year for my birthday. I will cherish all the memories in Connecticut. I will cherish the memories from all the trips to Italy to visit the family. You are reunited with Cathy. Keep each other safe and watch over us. I will do like you told me and that is to take care of mommy. We will all be reunited one day and we will be together as a family once again. I love you always. Rest in peace with Cathy. Til we meet again...Love, Michele
