“ So sorry for your loss. My memories of cousin Ron where during his life growing up before he entered the service . He always had a smile and was a bit of prankster. He loved playing pranks on his family members always generating a lot of laughter and excitement. We have had many laughs over the years over his various stunts. He was very close to my father (Uncle Carl). They spent a good deal time inventing and making Rockets. There last rocket was very impressive. it had 3 stages was 3ft long and even had a parachute on the nose cone. They launched this rocket somewhere in the hills of KY. It was a success all three stages ignited however the noise was so loud it roared through the hills and Dad decided they should stop before they got into big trouble. He will be missed. I will always remember his laughter, singing and playing his guitar.
